LIBRARY REPORT, 1913.

The trustees of the Andover Town Library submit the following report for the year ending Feb. 15, 1913.

The number of books issued during the year at the Center Village was 2,919; and the number of borrowers was 347. At East Andover the number of books issued was 1,011; and the number of borrowers was 119.

The decrease in the number of books issued during the year is due, apparently, to the disturbance in the routine of library work during the progress of moving the books at the Centre from the Academy building to temporary quarters in Proctor Hall.

There is, however, a gratifying increase in the number of borrowers.

The present location of the library is recognized as only temporary and the need of permanent quarters becomes more pressing every year.

It is hoped that at the coming annual town meeting a full and earnest consideration may be given to some plan to secure a permanent home for our valuable library.

The use of the library is steadily increasing every year, and its needs are sure to keep pace with the demand for its benefits.

MAY J. HERSEY.
